Re : **The 10th Cohort DSE Results (2020-2021)**

Dear parents and students,

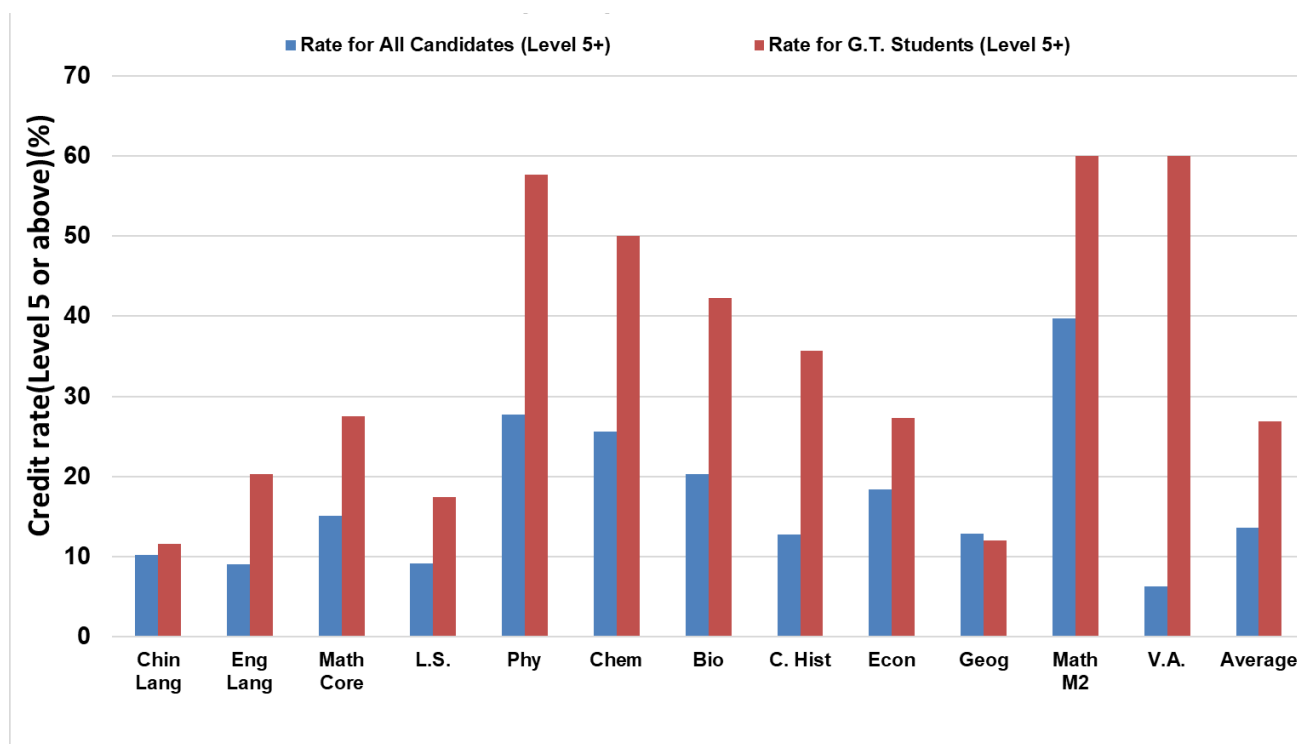

These two years have been full of obstacles, but we are honoured that our 10th cohort of Grade 12 students have achieved triumphantly in the DSE examinations. The DSE results were released today. This year 49,976 candidates took the DSE examinations, declining by nearly 2% in comparison with the 50,809 candidates in 2019-2020. To compete for 15,200 places of the UGC-funded degree programmes, the acceptance rate is around 30%, similar to the one in the previous year. Basically, students attaining a total grade point of 19 or above in the best five subjects and core subjects at 3322 or better should have a UGC-funded degree programme placement.

Our 10th cohort students performed well in the DSE examinations:

- 81.4% of our students attained the minimum university entrance requirements (33222) (Hong Kong all candidates' average: 36.2%). It is 2.2 times higher than the Hong Kong average.
- G.T. students' average total grade point in the best five subjects is 21.3, and 24.4 for the best six subjects. One fourth of our students have obtained an average of 31.6 total grade points in the best six subjects.
- In the 12 subjects, G.T. College's Level 5 or above average is 26.9% (Hong Kong all candidates' average: 13.6%). On average, every G.T. student has 1.7 subjects with Level 5 or above.
- Six subjects (English, Physics, Chemistry, Biology, Chinese History, and V.A.) percentage attainment Level 5 or above is at least 2 times higher than that of the Hong Kong average.

To be fair and objective, our 10th cohort DSE achievement amid the hard times and gigantic changes caused by the pandemic is simply remarkable and promising. May I express my deepest appreciation and gratitude for your continued support and efforts in making the DSE exam results a great success for both your family and the school.

May I extend my blessings to all the DSE graduates from G.T. College. I wish them every success with their future endeavours.

Yours truly,

Dr. Raymond Tam
