##### ■Talent Classes

The arts have long been used as a medium for communication. This means of self-expression is a significant part of our culture and way of life. The Talent Class program focuses on developing the quality of our students' artistic ability. It aims to nurture students with the virtues of creativity, openness, flexibility and aesthetic sensitivity and provides them with a balanced and diversified arts curriculum, including fine art, media art and performing arts.

Through our Talent Class program, our students can develop their enthusiasm, professionalism and creativity in the art class they wished to study in. We recommend our students to take one art throughout the whole of secondary school study. Through the extensive training in Talent Class, our students will pursue life-long interests in arts, which is a significant part of a whole-person development.

This course aims to help enhance students' academic knowledge and provide hand-on experience with the subjects of the student's choice. Emphasizes individual active engagement in activities as opposed to a transmission model of knowledge.
