

G.T. Newsletter

G.T. (Ellen Yeung) College - Secondary Section

ISSUE 6 July 2024

Principal's Talk

Dr. Raymond TAM
Principal

This month has been a whirlwind of activity as our time at G.T. College comes to a close. We held our secondary graduation ceremony to honour our Grade 12 students. It was a bittersweet occasion, with students saying goodbye to the teachers who have shaped their journey over their secondary school life. Earlier in the month, we attended the school advisor's end-of-year dinner, where we celebrated the successes of our students and reflected on how we can continue to support them. One particularly inspiring story was that of our alumnus, Tye, who is now pursuing his dream as a medical doctor at Harvard Medical School.

Our students were also very busy this month before their exam preparations. Various engaging events took place, such as the visit to the Shanwei Sluge Power Plant, the public science lecture at HKU, the pre-field trip to Sha Lan beach and Nim Shue Wan Beach. Who can forget our students' enthusiasm in the cultural exchange programs as that made some lasting memories with their host families and classmates.

Also a big thank-you to our school advisors, teachers, and parents for making 2024 a successful year for our students.

13th Graduation Ceremony

The 13th Graduation Ceremony was successfully held on 31 May, 2024, with the distinguished presence of Professor Nancy Y. Ip, the President of the HKUST, as the guest of honor. Professor Ip, a renowned neurobiologist born and raised in Hong Kong, has received international recognition for her work.

During her speech, Professor Ip empathized the challenges of raising children and the ups and downs that young people experience in life. She shared her personal journey, emphasizing the unexpected twists and turns, her remarkable research accomplishments, and the importance of self-preparation, recognizing aspirations, seizing opportunities, and realizing one's full potential. Her captivating and inspiring words left the audience enthralled. In her concluding remarks, she expressed her admiration and concern for the talented graduates, hoping that they would one day become university presidents, just like her. Her heartfelt words resonated deeply and earned thunderous applause throughout the hall.

Graduate performance

Teachers performance

Our teachers graduated from the HKUST taking a memorable photo with Professor Nancy Ip

As a gesture of gratitude, the graduates performed two heartfelt songs to express their appreciation to their teachers and parents for their guidance and support. Our junior form students dedicated the opening scene of the school's annual musical to bid farewell to their graduating seniors. The grand finale of the graduation ceremony featured a performance by the school management team and Grade 12 subject teachers, accompanied by the school orchestra. The team sang popular Cantonese songs that inspired the students to dream big, pursue their ambitions, and uplift one another.

With a sense of accomplishment and pride, the ceremony concluded, marking the beginning of a new chapter in the graduates' lives.

Term 2 Prize-Giving Ceremony

Dr. Delane Lim delivering his speech

Principal Dr. Tam presenting a souvenir to Dr. Delane Lim

The academic and conduct award prize-giving ceremony was a remarkable event that honored exceptional achievements and exemplary behavior. Principal Dr. Tam and the esteemed Dr. Delane Lim (serving as the Guest of Honour), delivered impactful speeches that left a lasting impression on the attendees.

Dr. Tam's speech emphasized the significance of holistic education, highlighting the importance of academic excellence as well as character development. He commended the students for their dedication and hard work, encouraging them to continue striving for greatness in all aspects of their lives. Dr. Delane Lim, renowned for his academic prowess, shared his personal journey and emphasized the values of integrity, resilience, and ethical conduct. His inspiring words motivated the students to embrace challenges and pursue knowledge with passion and determination.

The event served as a powerful reminder of the value of hard work, discipline, and ethical behavior in achieving success.

Triumph in English Competitions

Our G.T. students demonstrated remarkable proficiency in multiple English competitions during the 2023–2024 academic year. They have really distinguished themselves with their diligence, commitment, and superb communication abilities. Once more, a hearty congrats to the winners of their esteemed awards!

Dr. Paul Lip
English Language Teacher

Sino Junior Report Programme

Through this first-hand experience of interviewing people from various sectors as part of the Sino Junior Report Programme for news writing and interviewing, our student Janis Lam (10A) was able to anticipate potential career challenges. Our student receiving the Certificate of Achievement this year was a fantastic honour.

TOPick English Writing Competition

The TOPick English Writing Contest 2023, organized by the HK Economic Times, attracted over 300 schools and received approximately 1000 entries on the topic “My Post-Covid Life in Hong Kong.” With the Merit award, our student Phoebe Chan (9A) was able to distinguish herself from the competition after burning the midnight oil on her essay.

From the left: Dr. Clara Cheng, Elyse Leung (9B), Gian Pang (8B), Hannah Kwok (7E), Elyn Zeng (9C), Chloe Kan (9A), Hinson Ng (8C), Mr. Leo Tsui, Emma Zhang (8A) and Gaily Yuen (7F) sharing the happiness of attainment

From the left: Leo Wong (11D), Dr. Clara Cheng, Sophie Cheung (9A), Christie Leung (10A), Adrian Chu (10A), Janis Lam (10A), Kingsley Huang (8A), Principal Dr. Tam, Vivian Choi (7C), Shirley Lee (7B), Hannah Kowk (7E), Emma O (10A), Allyson Hui (7D), Mr. Leo Tsui and Mr. Danny Sorby celebrating the joy of accomplishment

75th Hong Kong Schools Speech Festival (English Speech)

Established in 1949, the Hong Kong Schools Speech Festival (English Speech) provides students different categories to excel in their English abilities. All English teachers made a determined effort to train students during recess. This year, our students earned one 1st place position, two 2nd place positions, nine 3rd place positions and 39 entrants attained Merit.

23.4 World Book Day Creative Competition

Christie Leung (10A) took home the Winner prize in the 23.4 World Book Day Competition in 2024 organised by the Leisure and Cultural Services

Department. She worked tirelessly on her prose piece on how books helped her. Her effort paid off and she won the Outstanding Award (Senior Secondary English (Category)).

21st “Century Cup” English Speaking Competition

China's largest and most renowned English-speaking competition, the "21st Century Cup" National English Speaking Competition was started in 1996 by the China Daily Group. Our student Christie Leung (10A) managed to grab First Prize among 10 finalists in the Senior Secondary Category which is an astounding result.

Grades 7-9 G.T. Reading & Writing Competition

This year is special as we held the Grades 7-9 G.T. Reading & Writing Competition 2024 to ride the wave of our Read & Write Initiative. Students found the competition interesting since the grade's top winner earns great prizes. Nine winners achieving 3rd to 1st places from each grade were chosen this year for their magnificent, artistic book reports.

Talent Show

Lion Dance performance with live musical accompaniment

Students from the Pop Band class performing a duet

The Creative Dance class giving an astonishing performance

Street Dance students posing for a photo after a successful performance

The G.T. College Talent Show 2024 was an amazing annual school event. It was very successful in allowing students to demonstrate their talents.

The talent show featured a wide spectrum of performances, ranging from singing, lion dance, street dance, creative dance, modern dance, pop band, instrumental performance, stilting, handchimes, and more. Students from various courses and cultural backgrounds came together to showcase their unique talents and skills. There were also wonderful teacher performances to reveal their talents as well.

The G.T. College Talent Show was a memorable evening filled with exceptional performances and unparalleled talent. Students forged their own valuable and memorable experiences. All students are looking forward to the Talent Show in 2025. It's an event you will not want to miss!

Mr David Chan
Talent Development Group

The Science Public Lecture at HKU

To gain insights about the sustainability of a plastic economy, six ZPL students attended a public science lecture presented by Dr. Christella Not, Senior Lecturer at the Department of Earth Science and Swire Institute of Marine Science of The University of Hong Kong (HKU), on 11 April 2024 at The University of Hong Kong. The speaking topic was "From Awareness to Action: Tackling Plastic Pollution and Building a Sustainable Future." They learned from the lecture that only 8% of plastics in Hong Kong are recycled while more than 70% of plastics end up in landfills. Thus, education is important to enlighten the public about the adverse effects of plastic pollution and take action to make change.

Dr. Christine Yu
Assistant Principal

Biomedical Science Internship at the CUHK

In February, 2024, Prof. Wai-Yee Chan [Vice-President (Strategic planning)] and Li Ka Shing [Professor of Biomedical Sciences, Chinese University of Hong Kong (CUHK)] presented an inspiring talk to our students during the weekly assembly. The title of the talk was “Challenges in Growing Up as a Scientist”. Prof. Chan used his own experience to encourage our students to develop diverse interests and social skills, to engage more in extracurricular activities and community service, as well as to remind us of the necessity of self-reflection and continuous learning. He guided us to look into the “change” from the DNA era to STEM era, and not to forget the ethics behind scientific development.

After the talk in February, Dr. Christine Yu has been in touch with Prof. Chan and his office at CUHK to explore the possibility of providing internships in biomedical science to some of our students who are eager to try out, or even just to observe, frontier research using the university laboratory facilities. It is great news to the G.T. community that we will have our first internship in a high calibre laboratory specialising in novel

therapeutics for cancer research in the School of Biomedical Sciences, Faculty of Medicine, CUHK this summer. We are now interviewing G10 and G11 students who have shown outstanding performance and dedication to science research projects at school. We encourage junior grade students to be more proactive in the study of science and participation of science activities. We anticipate more internships at different institutions in the near future.

ZPL pre-field trip to Sha Lan Beach and Nim Shue Wan Beach

A group of ZPL students collecting sand samples for microplastic collection

Zero Plastic League (ZPL) organized a beach clean-up activity for school students on 1 June 2024 in order to clean up the beach and collect data for environmental research. We hope the activity will increase students' awareness of plastic pollution. The collected data about the number and types of microplastics will also be contributed to the online database, helping to create the global map of ocean microplastic pollution. To make the cleanup experiences rewarding, ZPL students conducted two pre-field trips to Sha Lan Beach in Tai Po on 23 March 2024 and Nim Shue Wan Beach in Discovery Bay on 13 April 2024 to learn of the site information. Nim Shue Wan Beach in Discovery Bay was finally chosen to be the beach cleanup site. Stay tuned for further updates!

Time Off: Annual Dinner for G.T. Advisors and Governors

The Annual Dinner for G.T. Advisors and Governors was held on 5 June 2024 at the Crowne Plaza in TKO. The event, which ran from 6:00 p.m. to 9:30 p.m., was a great success, with the College expressing its deepest gratitude and appreciation for the enthusiastic support of the Very Important Persons from academia, industry, and business.

The night's theme, "Night Vibes GT" (優才夜繽紛) was a hit, transporting attendees back in time to the nostalgic Hong Kong of yesteryear. Governors, advisors, and other distinguished guests mingled over delicious Cantonese cuisine and fond reminiscences of their time at the college.

It was a wonderful opportunity for the G.T. College community to come together, reconnect, and enjoy a well-deserved, short respite from their busy schedules. The evening was a heartwarming celebration of GT's achievements and the lasting bonds forged among its closest supporters.

Manchester Cup

Team Photo with Athletico Failsworth JFC C6bras

Posing a for team photo in Old Trafford

20 students were selected to represent G.T. College to participate in the Manchester International Easter Cup. The event took place from 28 March to 6 April in Manchester, United Kingdom, to enable teams all over the world, including: Ireland, Trinidad and Tobago, Australia, and Scotland- to enhance their skills and friendships among players. Despite a significant disadvantage in size and individual skills, the kids worked hard as a team, keeping their spirits high. They finished 3rd in the group stage and placed 5th out of ten teams overall.

After participating in the Manchester Cup, they were honoured to have the chance to visit two of the most famous football stadiums: Old Trafford and Emirates Stadium. They are the home of Manchester United and Arsenal, both teams competing in Premier League football, and they are among the most widely supported football clubs in the world. The students were thrilled to see things they had previously only seen on TV, in person.

The students had a remarkable experience in Manchester, where they learned about their strengths and weaknesses in football. I hope they are able to improve and apply these experiences in their games.

Mr. Richard Yiu
Vice-Principal

International Economics Olympiad Hong Kong Regional Selection: Outstanding Students to Compete Against Elites from 50 Countries

On 18 May 2024 the Gifted Education Council organized the International Economics Olympiad Hong Kong Regional Selection, attracting nearly 400 students from local schools and renowned international schools.

The Council has also been officially appointed by the International Economics Olympiad Committee to host the 2024 International Economics Olympiad in Hong Kong for the first time. The Hong Kong Team, which won 1 gold, 2 silver, 4 bronze, as well as first place in the global business case project at the 2023 competition in Greece, will also compete on home soil for the first time.

This year's competition will be held from 22-31 July 2024 at G.T. College. It is expected to attract elite students from over 50 countries and regions. The Hong Kong SAR government is also providing strong support, with the Investor and Financial Education Council (IFEC) under the Securities and Futures Commission (SFC) becoming a supporting organization for the competition. In addition to having prominent political and economic figures as guests of honor at the opening ceremony, the event will arrange for participants to visit famous tourist spots in Hong Kong and engage in cultural exchange activities, allowing global elite students and educators to gain deeper insights into Hong Kong.

Some students stood out in the competition, winning gold medals and qualifying for Hong Kong team training. The Gifted Education Council will intensively train these selected students, selecting the top ten to represent Hong Kong in the competition against elite students from 50 countries and regions.

The organizers stated that this competition successfully showcased the talents and competitiveness of Hong Kong students in economics.

Mr. Mike Carr and MWIT students playing rugby passionately in the rain

Ms. Daisy Yung giving an Art lesson to MWIT Students

The GTC-MWIT Exchange Programme, held from 22-28 April 2024, was a resounding success. Thai students and teachers arrived early on the first day and immediately jumped into various lessons at the host school, including art, third language studies, and science.

In addition to the classroom activities, the Thai participants had the opportunity to explore Hong Kong and experience its vibrant culture. They visited HKUST, and enjoyed the bustling seafood street, known for its connection to the city's movie and drama scene. The renowned M+ Museum provided them with a chance to immerse themselves in art and history. Roller skating, bonding at Ocean Park, and spending a day with their host families were also part of the memorable experience before bidding farewell and returning to Thailand.

But the adventure didn't end there for the Thai buddies who continued their exploration of Hong Kong by visiting Causeway Bay and other districts, indulging in some retail therapy and savouring delicious street food. Even after school, they continued to discover more tourist spots alongside their local buddies.

The exchange program forged deep, lasting friendships between the G.T. students and their Thai counterparts.

International Exchange Department

Dr. Vincent Tam giving a Biology lesson to MWIT Students

Students attending their karate lesson

Students dressing up in traditional Japanese clothing

From 26-30 May 2024, a group of 7 students from our school had the incredible opportunity to visit Ritsumeikan School (RITS) in Kyoto, Japan, accompanied by their chaperone, Mr. Danny Sorby. This cultural exchange program was an immersive experience that allowed our students to fully immerse themselves in Japanese culture and traditions.

During their time at RITS, the students participated in a variety of activities that gave them a deep appreciation for Japanese customs. They learned how to make traditional daruma dolls, and even took part in a genuine tea ceremony. One of the highlights was the karate lesson, where the students were able to learn basic self-defense techniques from the school's martial arts instructor.

The trip also included visits to some of Kyoto's most famous historical sites, including the stunning Nanzenji Temple and the serene Heian Shrine. It was an unforgettable experience that has left a lasting impression on our students.

A Visit to Shanwei Sludge Power Plant

Group Photo being taken after we arrived at the power plant

Students sightseeing in a tower

Students standing in front of the power generator

Students watching the explanation of the facilities of the power plant

Mr. Leslie Tam, Mr. David Chan, 15 G11A IB Geography students, and 13 Green Committee members visited Guangdong Shanwei power plant on 13 April 2024. This activity was held by China Resources Power Holdings (華潤電力) and Green Council (環保促進會). This power plant has applied the latest environmentally-friendly technologies, such as sludge incineration, fixation of carbon dioxide with algae, and solar power generation. It is one of the first batches of scientific and technological innovation pilot demonstration projects of the National Energy Administration. Students visited all these facilities and their knowledge of climate change has been enriched.

Mr. Leslie Tam
Head of Environmental Education

Parents' Talk – The Power of Positive Parenting

Mr. Alex O & Mr. Jerwa Ip showing appreciation to Mr. Chu

On 10 May 2024, Legislative Council member Mr. Chu Kwok-Keung delivered a talk entitled "The Power of Positive Parenting" to over a hundred teachers and parents that were in attendance. The main message was to praise children more. Mr. Chu emphasised that regularly offering sincere, specific praise can greatly improve a child's self-confidence and motivation. Research shows that this is better than always criticizing children or expecting too much from them. The audience found the talk very helpful and many parents said they would try to be more positive when parenting. The event showed the value of community programs that empower parents to better support their children's development.

Passing on the Torch Sharing Session

Assistant Principal Mr. Leo Tsui sharing in the FAQ session

Vice Principal Mr. Richard Yiu giving the welcoming speech to parents

On 24 May 2024, our school's PTA hosted a special event for Primary 5 and 6 families. Over 100 primary school parents attended to learn more about the transition from primary to secondary school.

At the event, 22 parent volunteers from the Secondary Section and 20 teachers shared information on topics about the curriculum, extra-curricular activities, school culture, and student support services. Parents had the chance to ask questions and gain insight to help prepare their children for the next stage of their education.

The large turnout and active discussions show the strong partnership between our primary and secondary sections. GT is grateful to everyone who participated in this meaningful knowledge-sharing event, which will benefit our future secondary school students and their families.

Alumni Corner: No Place Like GT

I am glad to share a successful story from our alumnus graduate, Tye Chu, from GT in G11 in 2020. He recently came back to HK from the US and visited Principal Dr. Tam and teachers. Tye has been working very hard to prepare for his second degree pursuing his dream as a medical doctor in the USA. I wish him every success in his future endeavours!

Hello everyone! My name is Tye Chu. I have had the privilege of studying and growing up at GT from G1-11 until 2020. I recently graduated from Cornell University, an Ivy League university in the US, and will be working as a research assistant studying autism at Harvard Medical School. I was very fortunate to be able to participate in many exchange programs and international science competitions during my time at GT, which broadened my views of the world and academia, and allowed me to interact smoothly with peers all around the world. For those invaluable opportunities given to me, I do thank Principal Dr. Tam, Dr. Christine Yu, and other mentors at GT. These programs offered at GT are one of a kind in Hong Kong, and were extremely valuable in shaping my development as a scholar. I encourage everyone without reservation to participate in them!

G.T. Alumni Gathering: No Place Like Home

The PE Department and Alumni Association hosted a G.T. Alumni New Year Gathering & Sport Competition for alumni and teachers on 17 February 2024. We invited over 50 alumni, 30 teachers and 20 students to our mother school to join our event. Alumni and teachers could choose to participate in one of the following sports: football, basketball, volleyball, badminton, and table tennis. At the end, the old boys and girls won lots of games in the friendly competition. A New Year gathering was organized in the Grand Hall that evening. We had nine bowls of Poon Choi prepared for all the participants. During dinner, the Alumni Association had prepared a Kahoot Quiz about our G.T. History and provided prizes for the prize draw. The event created a lot of memories and fun for all involved.
